Many animals lay eggs.  
Eggs can be strange  
and beautiful.

These eggs are  
in a nest of twigs  
and soft grass.  
They are a beautiful sky blue.  
Do you know whose eggs these are?

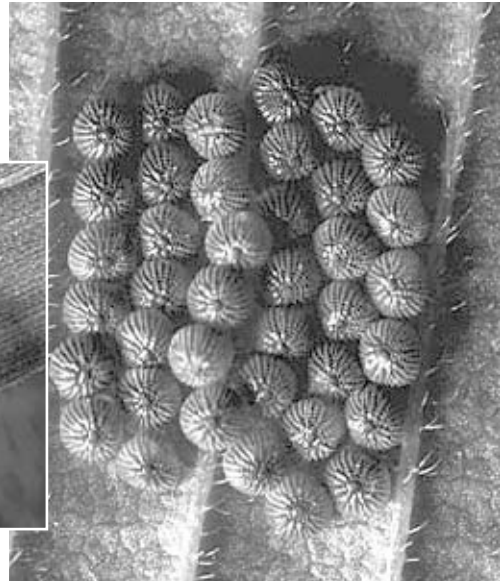

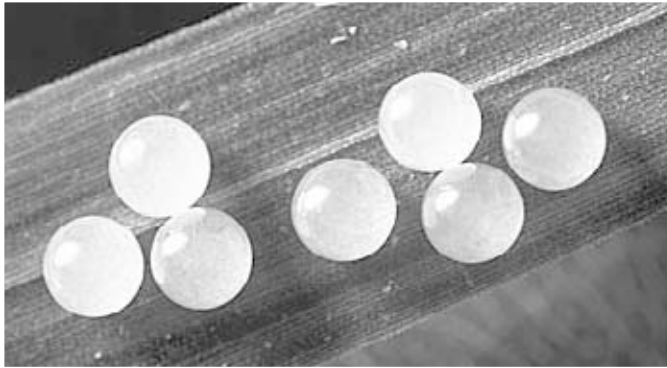

3

These are robin eggs.

4

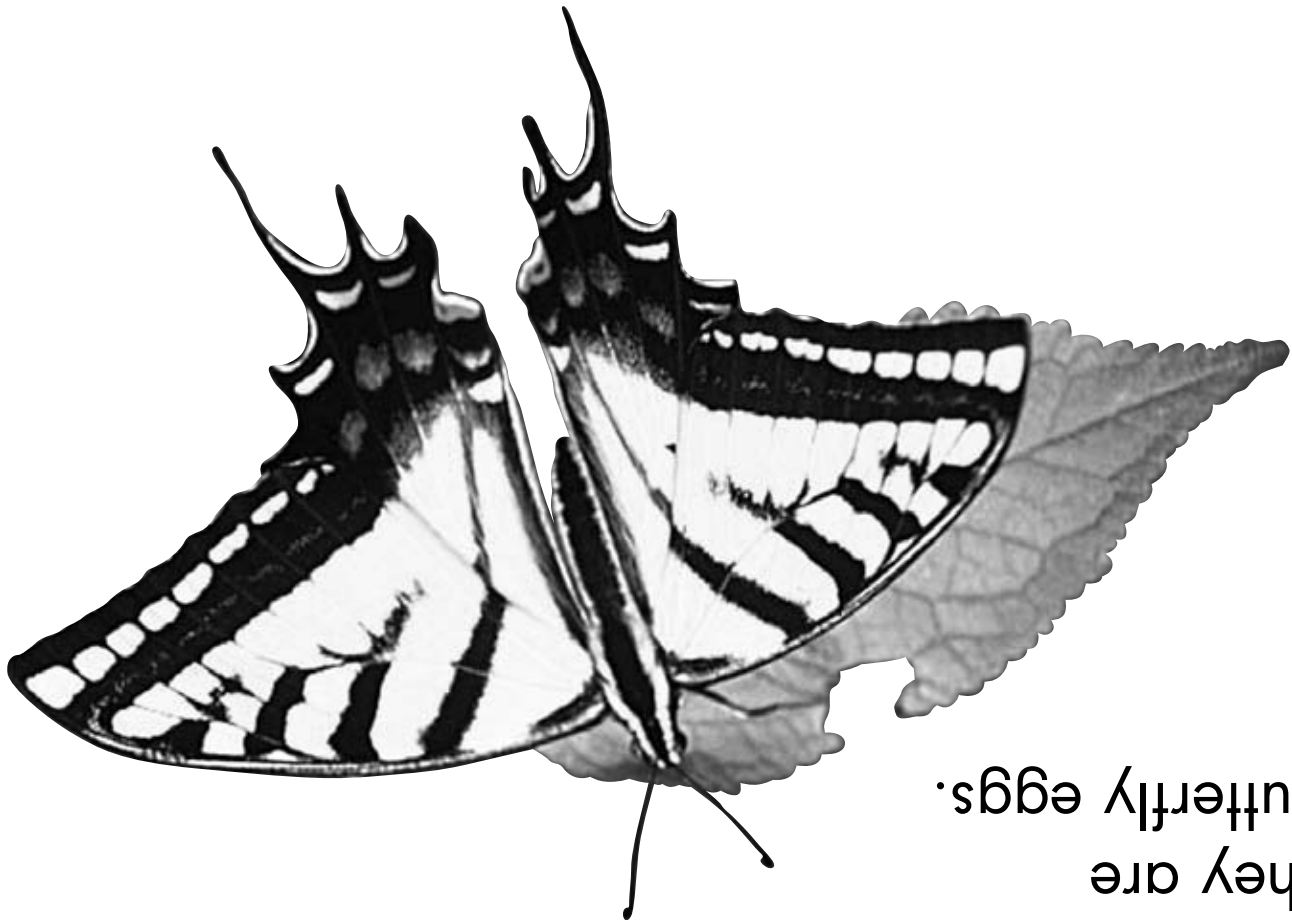

These tiny eggs are on the bottom of a leaf.  
They can be round like pearls,  
or they can be spiny.  
Whose eggs are these?

5

9

They are  
butterfly eggs.

There are many eggs  
in this tiny case.  
It looks like  
light brown paper,  
but it is made of silk.

Whose eggs are these?

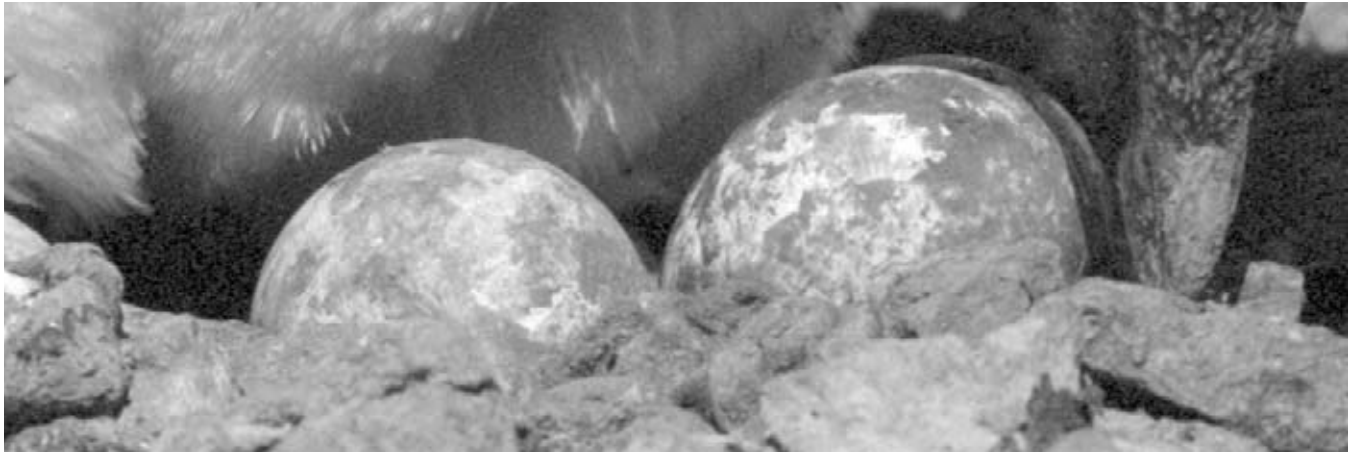

7

They are spider eggs.  
You can find them  
near spider webs.

8

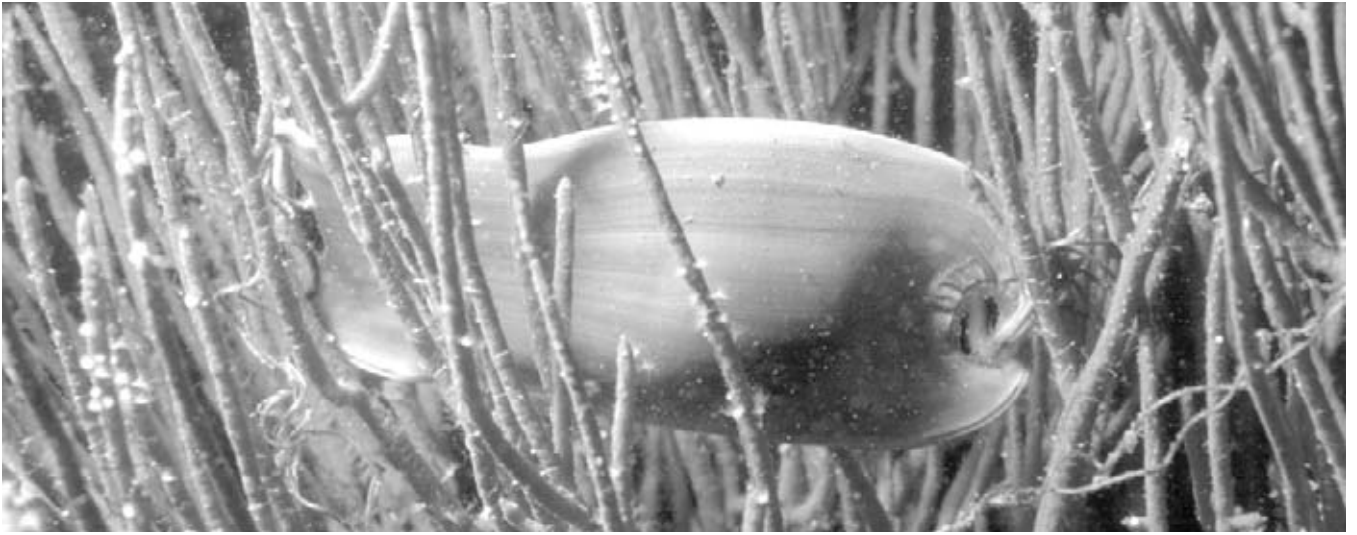

These large eggs aren't in a nest or case.  
They sit on cold rocks.  
But feathers help keep them warm.  
Whose eggs are these?

9

These are penguin eggs.  
Penguins keep eggs warm  
with their feet and feathers.

10

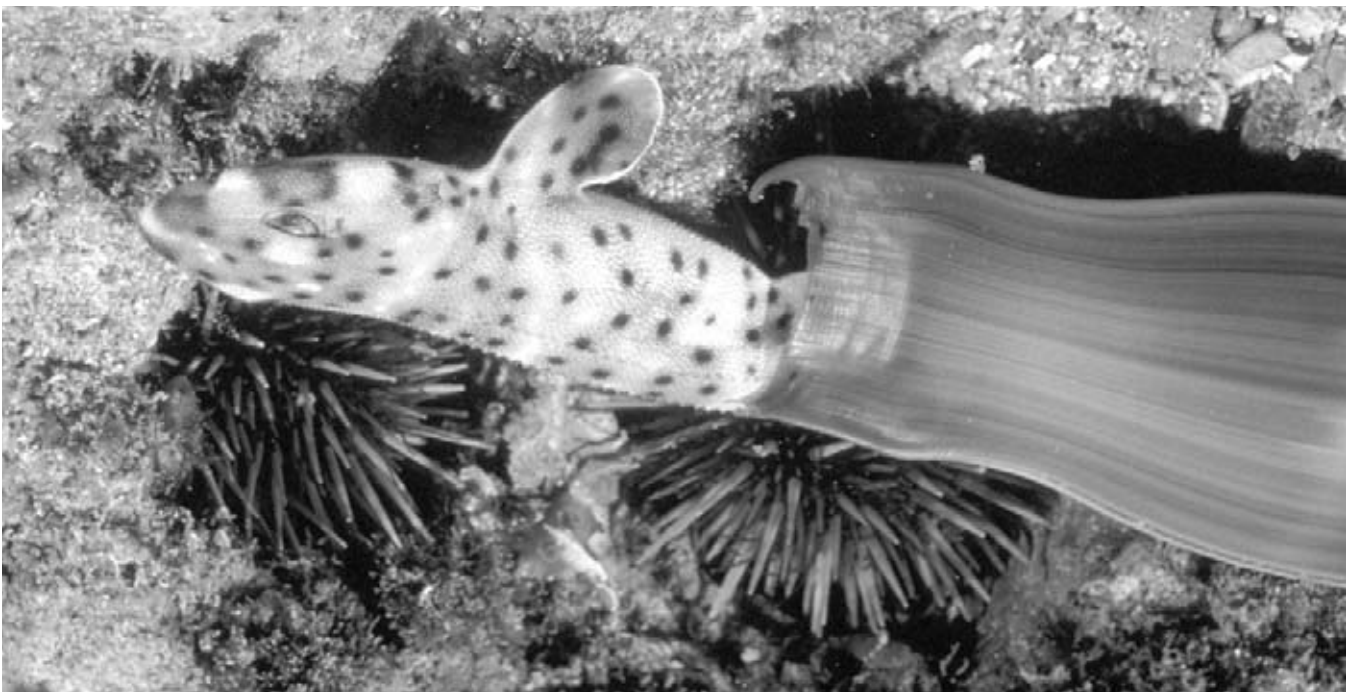

This strange egg floats in the ocean.  
It is inside a flat, square case.  
Whose egg could this be?

11

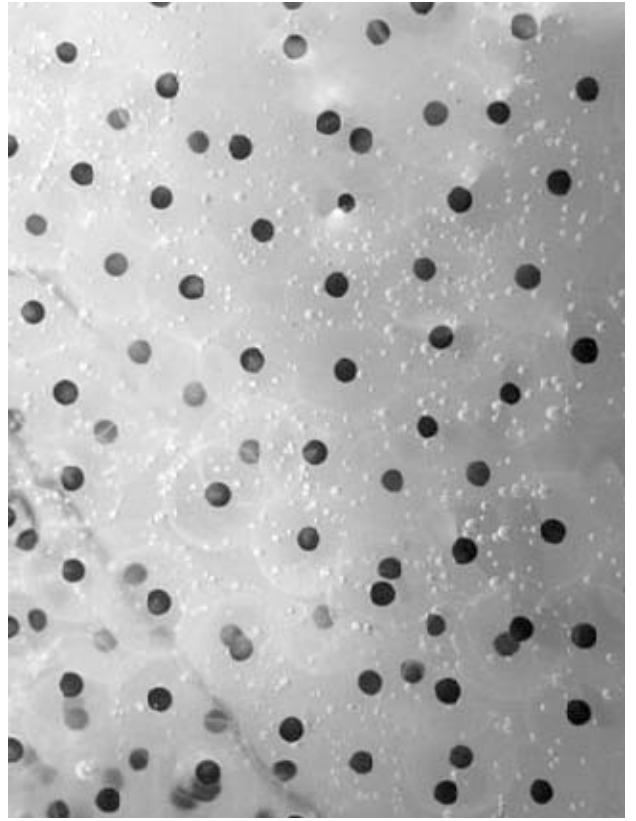

This is a shark egg.

12

These eggs float on a pond.  
There are tiny fish-shaped things inside each egg.

Whose eggs are these?

13

They are not fish eggs.  
They are frog eggs.  
The fish-shaped things are tadpoles.

14
